SUMMARY

Innovative and detail-oriented 3rd-year B.Tech Computer Science student with a strong foundation in web development technologies including HTML, CSS, JavaScript, TypeScript, React, Tailwind CSS, and Next.js. Experienced in building dynamic, responsive, and user-centric websites and applications. Adept at problem-solving, collaborating in team environments, and applying technical skills to deliver scalable solutions.

EXPERIENCE

WEB DEVELOPER   JUNE 2024 - PRESENT

- Developed and Maintained a Tour and Travel website for a small business using HTML, CSS JavaScript.
- Deployed the site using Netlify, managing domain setup and hosting.
- Focused on clean, responsive UI to ensure accessibility on mobile and desktop devices. Handled routine updates and content changes as needed.

PROJECTS

AGPT

- Developed AGPT, and advanced conversational AI application inspired by Google Gemini 2.0, using React.js(Vite) and Gemini API. Implemented features including interactive chat, new conversation initiation, and chat history. Focused on delivering an intuitive user experience with seamless API integration and scalable design.

SUMZ

- A full-stack AI-powered article summarizer using Next.js and OpenAI's GPT API. Designed an intuitive user interface for inputting URLs and implemented efficient backend API integration for generating concise summaries and a clean and Responsive UI.

SNIPPETS

- Build a full-stack Code Snippets app using Next.js and Prisma ORM with a connected relational database for efficient storage and retrieval. Enabled CRUD functionality to create, edit, view, and delete code snippets seamlessly with a Responsive UI and Error Handling.

EDUCATION

Bachelor of Technology in Computer Science and Engineering   2022-2026

CLGIET, Bikaner Technical University [Sumerpur, Rajasthan]

- Relevant Coursework: Data Structures and Algorithms, Web Development, Database Management Systems, Computer Networks, Object Oriented Programming

ADDITIONAL INFORMATION
